WORK EXPERIENCE

Freelance Web Developer

Live | Github

Jan Kalyan Jan Sahyog Foundation

- Developed a professional and engaging website for a nonprofit organization Jan Kalyan Jan Sahyog Foundation, spotlighting its initiatives and social impact.
- Built responsive layout and accessible web pages using React and Tailwind CSS, emphasizing user engagement and mobile-first design.
- Deployed the website using Vercel with a custom domain registered via GoDaddy, enhancing its professional online presence and outreach.

PROJECTS

E-Commerce App | *NodeJS, Express, MongoDB, HTML, CSS, JavaScript, EJS, Passport.js*

Live | Github

- Developed a feature-rich e-commerce platform with features such as add-to-cart, star rating, reviews and buyer-seller dashboard
- Built a secure REST API for user authentication using Passport.js and integrated MongoDB for efficient product and user management.
- Created a responsive UI using Bootstrap and optimized the platform for seamless shopping experiences.

Blogs React App | *React JS, Redux Toolkit, Appwrite, Tailwind CSS, TinyMCE*

Live | Github

- Developed a full-featured blog application with rich real-time text editing capabilities using TinyMCE and React-Hook-Form for form handling.
- Utilized Redux Toolkit for efficient state management ensuring smooth user interactions.
- Integrated Appwrite to manage authentication, user roles, and data storage, enabling users to create, read, update, and delete blog posts.
- Ensured a responsive design across devices using Tailwind CSS, following mobile-first design principles.

Chat App | *NodeJS, Express, HTML, JavaScript, Bootstrap*

Live | Github

- Built a real-time chat application with Socket.io, allowing seamless communication between users in a browser environment.
- Developed a clean and intuitive UI using Bootstrap for responsive design.
